Top of the morn' to y'all

In light of the order dated 10 Jan, 2023 signed by Judge Lauren Reeder, I write to address the following

- (a) First, I attach a copy of the Request for FOF filed this morning with the court and e-served.
- (b) I note you have not answered the email below, sent on Jan. 5, 2023, citing to outstanding questions raised in email dated Dec. 28, 2022, either fully or in part.
- (c) I note you've also blanked the letter dated Dec. 27, 2022 (attached again) re voluntary discovery information. Considering your ignorance to date, if you do not respond by 1300 hrs today, I hereby put HCA on notice I will be filing a motion to compel the names, contact information including home addresses for the HCA Healthcare staff or consultants involved in my complaints and listed on the portal known as [MyHealthOne](#) which provides medical reports and data, including the a list of doctors, nurses and staff who attended to me during my time at Kingwood Hospital. I have also requested from you, as counsel for HCA Healthcare, the same information pertaining to the nurses and security guards who were present in my room threatening to evict me and my parents.
- (d) In regards to the order denying your request for temporary injunctive relief, are you going to dismiss the baseless counterclaim with prejudice or will you be pursuing reconsideration, appellate or other relief? I'd like to know in case y'all are still feeling threatened and cannot communicate with me, or if you're going to behave professionally as we proceed and respond, either in short or long form to my emails. I also request a response in case I have to file relevant motion(s) to dismiss the baseless counterclaim with prejudice, as it is now moot. I certainly do not plan on allowing this frivolous counterclaim to remain percolating on the docket.

Cheers

Mark Burke

The public 'gripe site' at [KingwoodDr.com](http://KingwoodDr.com) maintains a record of all communications between HCA Healthcare Inc., and myself in this matter, along with other articles of public concern, including "[HCA holds the record for the largest Health Care FRAUD in American history](#)". This article confirms Congress is currently seeking another federal probe into HCA (as at Sept 2022).
